

Unbroken Ranks 1 MILITARY • BASIC ACTION: Bank this as an Asset. After you win a battle in which you used no Orders, you may discard it to gain 1 Command. BATTLE: If you win this battle and used no Orders in it, gain 1 Command.	Battlefield Promotion 2 MILITARY • BASIC ACTION: During an Action Opportunity after you win a battle this turn, return one card you played from your Battle Hand in that battle from your Discard Pile to your hand. BATTLE: If you win, return one other card you played from your Battle Hand to your hand instead of discarding it during cleanup.	Encampment 2 MILITARY • ADVANCED • TERRITORY OVERLAY ACTION: Place this as an Overlay on a Territory you occupy and control. OVERLAY: At the end of your turn, if you occupy and control this Territory, gain 1 Command. When an opponent gains control of it, put this in its owner's Graveyard. BATTLE: If you win while defending a Territory you control, place this on it as an Overlay during cleanup.
Rearguard 2 MILITARY • ADVANCED ACTION: Bank this as an Asset. After you lose a battle and retreat, when your opponent would enter your position that turn using an Order or card effect, you may discard this to prevent that movement. No Command is spent; any card used returns to its owner's hand. BATTLE: If you lose and retreat, bank this during cleanup.	Brothers in Arms 2 MILITARY • ADVANCED ACTION: Bank this as an Asset. Before cards are committed from hand in a battle involving you, you may discard this to delay your hand commitment until after both players form their Battle Hands. Then either commit one card from your hand and choose one card from your Battle Hand, revealing both face up together, or choose neither. Both Battle effects must still be able to resolve. BATTLE: If this is in your initial Battle Hand and you committed no card from your hand, you may choose this and also commit one card from your hand face up. Both Battle effects must still be able to resolve.	Field Command 3 MILITARY • ADVANCED ACTION: Bank this as an Asset. After using a 1-Command Order, you may discard this to use your Leader's other 1-Command Order once this turn, at its next legal timing, for 0 Command. BATTLE: After using a 1-Command Order during this battle, you may use your Leader's other 1-Command Order once this turn, at its next legal timing, for 0 Command. If you do, put this in your Graveyard after that Order resolves.
Reserve Force 3 MILITARY • ADVANCED ACTION: Bank this as an Asset with another card from your hand that has a Battle effect face down beneath it. After all cards in a battle involving you are revealed, you may discard this to reveal the stored card face up for its Battle effect, if that effect can still resolve. Put the stored card in your Graveyard during cleanup, or immediately if this leaves play before deployment. BATTLE: After all cards in the battle are revealed, you may replace this with a card from your hand whose Battle effect can still resolve. If you do, put this in your Graveyard, reveal that card face up for its Battle effect, and put that card in your Graveyard during cleanup. Otherwise, discard this during cleanup.	Give Chase 3 MILITARY • ADVANCED ACTION: During an Action Opportunity after you win a battle you initiated this turn, move one position toward the opponent's end of the Gauntlet. This may initiate a battle. BATTLE: If you win and initiated this battle, after the opponent retreats, move one position toward their end of the Gauntlet. This may initiate a battle. PURSUIT: In a battle initiated this way, you cannot commit a card from your hand or use Orders. When forming your Battle Hand, draw one fewer card for each battle already fought this turn beyond the first, to a minimum of zero. After the movement, put this in your Graveyard.	Hold the Line 4 MILITARY • ADVANCED ACTION: Bank this as an Asset. When a battle begins in which you defend a Territory you control, before cards are committed from hand, you may put this in your Graveyard to use the effect below.
