FIELDCRAFT Once per turn, spend 1 Intel to ignore a printed Territory effect affecting you, your movement, or a battle involving you until end of turn. SPECIAL OPERATION When Progress exceeds opposing controlled Territories, begin an eligible Mission card as a Special Operation; satisfy it and pay its Intel cost to win.	Information never rests. Momentum is the weapon. MISSION TEMPO • NETWORK COMMAND • COORDINATION MISSIONS Complete normal Missions for 1 Operation Progress and Intel equal to the Mission card's value. SURVEILLANCE Once during the Gambit stage and once during the Tactic stage each battle, spend 1 Intel per opposing face-down card revealed. INTERFERENCE Immediately after revealing a card, spend 2 more Intel to return it to its source. Its owner may replace it from that source or pass. MISSION CONTROL Once per turn after completing a normal Mission, start another normal Mission from Hand without using an Action Opportunity. It cannot complete that turn. SPECIAL OPERATION When Progress exceeds opposing controlled Territories, begin an eligible Mission card as a Special Operation; satisfy it and pay its Intel cost to win.	ELIGIBLE Only an Intelligence card with a printed Mission requirement. START During an Action Opportunity after movement, instead of playing an Action, place one eligible Hand card face down as the Active Mission. Only one; it cannot complete that turn. COMPLETE During a later after-movement Action Opportunity, reveal a satisfied Active Mission. Gain 1 Operation Progress and Intel equal to its value, then put it in the Discard Pile. ABORT OR FAIL Abort during an after-movement Action Opportunity by revealing it and spending Intel equal to its value; discard it. A failed Mission is revealed and put in the Graveyard. SPECIAL OPERATION Progress must exceed opposing controlled Territories. Start an eligible card face down. Maintain readiness, satisfy its requirement, then pay Territories in the Gauntlet minus card value, minimum 1 Intel, to win.

OPERATIONS REFERENCE GAMBIT SURVEILLANCE Once per battle after the opponent sets a face-down Gambit, spend 1 Intel to reveal it. TACTIC SURVEILLANCE Once per battle after the opponent chooses face-down Tactics, spend 1 Intel for each opposing Tactic revealed. The two Surveillance opportunities are independent. INTERFERENCE Immediately after Surveillance, spend 2 additional Intel per revealed card removed. A Gambit returns to Hand; a Tactic returns to Reserve. Its owner may replace it from that source or pass. DIRECT INTERFERENCE A face-up opposing choice may be Interfered with directly for 2 Intel at the same response timing without Surveillance. REVISION & LIMITS After Interference and replacements, revise your corresponding choice if already made. A replacement creates no new reveal or response window.
